### **DETAILED ACTION**

1. This is in responsive to response to Election/Restriction filed on 8 May 2008.
2. Applicant's election without traverse of claims 20-29 in the reply filed on 8 May 2008 is acknowledged.
3. Claims 20 – 29 are presented for the examination.
4. Claims 4 – 19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Group I, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 8 May 2008.
5. Applicant is advised to cancel the non-elected claims 4- 19, since they are not pending in the application.

### ***Information Disclosure Statement***

6. The information disclosure statement filed on 31 August 2007 and 03 April 2008 fails to comply with 37 CFR 1.97(d) because it lacks a statement as specified in 37 CFR 1.97(e). It has been placed in the application file, but the information referred to therein has not been considered.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 20 – 29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to

one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

8. The terminologies "dynamical runtime reconfiguration", "coarse grain unit", and "Program load unit" used in claims 20 – 29 are nowhere defined in the disclosure i.e. specifications, drawings and claims (originally presented).

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 20 – 29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

10. Claims 20 – 29 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are:

11. In the claim 20, "(ii) adding an output of said multiplier stage and further operand input" in lines 14 – 15, and, "(iv) an operand input-----" 18 on page 5, it is confusing which one of two operand inputs is used here out of two operand inputs described in lines 9 – 10 on page 5.
